## STAR-BULLETIN AD BRINGS RESULTS

The following letter speaks for itself:  
Honolulu, T. H. Nov. 1, 1912  
Honolulu Star-Bulletin, City  
Gentlemen—It gives me great pleasure to report a sale through the use of your advertising columns.  
Two insertions in your paper brought a purchaser for a 3-room house on King street for \$3200.00.  
Other advertisements in your paper brought a number of inquiries and small sales, and I take this means of expressing my appreciation of the Star-Bulletin as an advertising medium.  
It has brought business for me and I'll do business with you. Yours very truly,  
B. CRESSATY

## BECKLEY NOT TO INCUR LAW

Despite the report published yesterday that Mr. Lyman and H. P. Beckley, supervisors on the other islands who are also candidates for senator, have declined to send to the Governor their resignations from the supervisory bodies, the resignation of Beckley was received by Governor Frear this morning. The report stated that the two supervisors were acting in this matter under the advice of Attorney Carl Carlsmith, who had declared they were not compelled to quit their present jobs before being elected to the senatorship.

Evidently Beckley has disregarded the attorney's counsel and decided to take no risk of fracturing the law. It is considered likely that Mr. Lyman's resignation will be received tomorrow or Monday.

## PROMINENT MEN WILL SPEAK FOR REPUBLICANS

Something out of the ordinary in political campaigning will be presented this evening on the court of the Manoa Tennis Club, and for all who attend there is promised a profitable and pleasurable evening. The change from routine methods will be welcome to the crowd that has doubtless already listened to numerous campaign speeches throughout the city.

They will not be candidates who will speak from the platform, but those who deliver addresses will be men not running for any office, and yet men who have faith in the teachings of the Republican party and who desire to inform their hearers concerning some of the vital principles of good government and how to effect it.

The chief speakers of the evening will be professor Edgar Wood, of the department of public instruction, Montague Cook, and W. O. Smith. These are noted speakers and men whose expressed thoughts are entertaining.

Photo-Engraving of highest grade can be secured from the Star-Bulletin Photo-Engraving Plant.

## RECREATIONS

## LIBERTY WILL GIVE VOTE NEWS

An interesting innovation will be introduced at the Liberty theater Tuesday night when the management of that theater will show by stereopticon the most complete and detailed results of both the local and presidential elections. In addition to the news of the election which will be received by every possible means made by experience, time and money through the service of The Star-Bulletin, the service of the Republican and Democratic committees will also be brought into use, making the returns to be shown as complete as it is possible to get them.

Although interest will doubtless be at fever heat Tuesday night, generally, and everyone will be more or less interested in the outcome, there are those who would not care to stand before the various bulletin boards, particularly women, and Manager McGreer's offering will doubtless be accepted by many. Although the returns will be the feature of the night, a program of vaudeville, music and pictures will be presented, the performance starting as early as 6:30 and continuing, without repetition, until the final results are known, which, it is estimated, will be about 11 o'clock.

For this night the one-show-a-night policy will be reverted to, all seats being reserved, which will allow an advance purchaser to enter the theater any time during the evening and be assured of the particular seat he purchased. An extra attraction will be the first local appearance of the famous Pia Trio of Operatic singers, headed by Signor Pia, who is said to be vaudeville's Caruso, and is said to be the greatest tenor on the variety stage, the balance of the vaudeville will be Martha Golden, Morris' pony circus and John Hedge, and an array of moving pictures that are claimed will keep everyone interested between election returns.

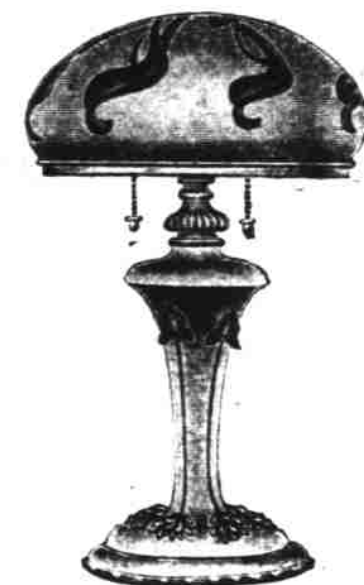

The advance sale of reserved seats was placed on sale yesterday and judging from the demand, McGreer's method of learning the election results will prove a popular one.

## BIJOU THEATER REOPENS TONIGHT

The long-expected re-opening of the Bijou theater will occur tonight when the pioneer vaudeville house again takes its place on the local theatrical map. Although there will be little change noticeable, the theater has recently undergone a thorough overhauling, an entire new electrical system having been installed, as well as complete moving picture appliances and stage mechanism, and it is expected that before the end of this month the decorators will have transformed the Bijou into the best-looking playhouse within the bounds of the "loop."

The opening bill tonight will be composed of new vaudeville, the feature being a comedy musical act called "The Three Musketeers of Musical Comedy," and judging from the opinion of fellow passengers on the S. S. Siberia, this act is one of the best to ever play this city. Another new act will be Florence Raymond, a ventriloquist of more than ordinary ability. These items, together with what

## ARTISTIC LAMPS GAS—OIL—ELECTRIC

Nothing adds more to the charm of the living or dining room than an artistic electric lamp.

Absolutely Pure  
The only baking powder made from Royal Grape Dream of Tartar  
No Alum, No Lime Phosphate

McGreer claims will be the brightest and most interesting pictures in the city, make up a very pleasing bill for the Bijou's re-opening.

## MISS GOLDEN REAL ARTIST

The Liberty is offering something entirely out of the ordinary this week in the person of Miss Martha Golden, the Pianologist Premier, and late of the Orpheum circuit. Her act comes to the theatre-goers of Honolulu who have, for the past few months been contented with the slap-stick variety of talent, like the sun after a rain-storm. She plays the piano some, and she sings some, and her imitations of a young lady just hom from boarding school playing a classic, and how she played the same piece after she had visited the dance-halls of San Francisco, was a scream. Her impersonations of Anna Held and Nance O'Neill, the famous tragedienne, singing "Smarty," brought down the house. It is an act alone well worth the price of admission and it is hoped that Manager McGreer will be on the lookout for more of this kind of talent.

Morris' ponies, which wrestle with their opponent, John Hedge, are still favorites with the youngsters and the older folks. The Boheme Trio has a number of new selections that they render in their usual good style.

## HAWAII THEATER IS DOING BIG BUSINESS

Playing to three full houses on a Friday night is a record that any play house may justly feel proud of, yet such is what the cozy Hawaii theatre did last night when it featured the famous biblical picture, "Cain and Abel," one of Pathe's best colored productions. The film is interesting all the way through and appeals very strongly to persons religiously inclined.

The other pictures, which included "Dooley's Scheme," "Through Darkened Vales," "The Traitor," and a colored one depicting life and customs in Algiers, were pleasant variations from grave to gay.

One very important change in the architecture of the theatre is the re-arranging of the roof so as to prevent rain from dropping on a part of the audience, which heretofore has been the only disagreeable feature of the otherwise popular theatre. The alteration makes the Hawaii the coolest as well as the most comfortable theatre in town, it being open on the sides and yet on a wet night is perfectly free from rain.

The same program will be repeated tonight and is well worth coming into town to see. Manager Noyes is preparing an especially fine program of first-run pictures for Monday night.

## Promise Back in Few Weeks.

The Norwegian freighter Promise, now at the port where 1100 tons phosphate rock is being discharged, is being discharged and will probably sail on a return voyage to Makatea on or about Friday of next week.

The vessel has been fixed for another voyage to the islands with fertilizer material. The prediction is made that the Promise will be back here again within six weeks.
